

## women's action forum

July 1st 1991.

LAHORE - PAKISTAN

The Womens' Action Forum strongly condemns the acts of brutality that took place in Islampura and Shiekhupura. We stand with the country in offering our sympathy to the berieved members of both families. The law and order situation has come to such a head that no place is left safe, not even the home. Once again women and children are the main targets of violence.

One of the prime duties of the state is to ensure the safety of its citizens, all its citizens. We urge the government to take swift action against the perpetrators of these vile and abhorrent crimes before the sporadic incidents spread and destroy the very structure of our society
