Decisions made + to get back to Z+R to send drafted letter to Bolt. Neelum left + Z+R not in town now w.c -- briefed by elect comm. As Sol w.c comm. asked to continue to handle it.

Z+R sent out their letter - Snoopy insisting Neelum's draft should be brought out + sent - details.

Remains unresolved issue.

Fax sent to Geneva.

* ~~Bolt~~ waf's position has been printed as WLUML on UN records - not obliterated.

when Nikon asked to f.up letter they did not because all proceedings are taped + they know that.

Bunny *: Although imp. that all positions should be reflected chronologically no debate - interpretive ideas inside - page each time only could it be effective.

overall feelings that conciliatory + so lets bury it.

Bunny - my stand that whatever waf has done even on points of disagreement - we've taken collective responsibility

"In 7" + R letter mentioned Bunny's name + the subsequent isolation (even at personal level, I am answerable/rather than the wcf collectively).
A response was needed + sugg. that Bunny do it personally - want to diffuse things but does it resolve any situation & is it feminist.
Ruby * Conciliatory gesture by Needum + others
At convention it should be brought up as GB decision & wcf's resp on the issue of Bunny's isolation. when wcf had position + should receive feed to it Bunny bashed for clarification + no-one responded -
The idea of not being divisive has not worked by pushing issues under carpet.

— Have to report an issue on agenda or part of report.

Pixie: In accusation by S Dan, all others should've been included.

Pixie - On HR things on a result this, this, this letter was sent + we feel it's an issue
Ruby: make it clear that letters sent out from wcf. + now correct this ~~please~~ earlier mistake at convention we did endorse it + let's accept mistake.

1. R'ship to other ngos
2. If issue personalised what does org. do.

Needs to be corrected as mistake

Rixie, Meena, Bunny, Jaweria, Samia, Atiya (Meeting can't come). Ruby, Farah arrive later -

→ finalising Lahore agenda - typed up.

→ Agenda items explained

Farah - confusion on convention endorsements that no donor agencies will be endorsing :- + instead national org.

Rixie - Is it for individuals or organisations - How will it be endorsed -

Farah - Some may want to be endorse as indiv. + not org :-

Rixie - Has been circulated to GB with donor agencies' name on it - Everyone identifies with donor org. name on it now i) changed position by Sarah should make it clear that no donors :-

ii) L of evidence - those had suggested amendments + not repeal :-

Rixie - 3 things distributed at GB by SG: when we take these doc. to N-Conv. WAF can't endorse only alternative papers on that basis can be support endorsement :-

Meena - need detailed information

Bunny - There's a process before convention - only at chapter level are things are finalised - Today (ant meeting) + leaving - whats not discussed There are minimum positions that WAF has -

+ those carried.

~~Pixie~~ -

Only 1 meeting in Lahore - so need to alert + be aware at chapter level of this so natural decision -

Raise it as point of information + the reservations so far - further changes at further meetings

Any mistakes cannot be blended tomorrow if WCF attended - meeting that means it automatically endorsing
