- Pixie reads report:

Thought as a process that should be + is in every org

Reflection -

Main agenda - WAF's r-ship to ff's NGOs

Qs - wither WAF been periodically revised - this part of process.

Subject to change + condition

modalities Qs esp - an ideal process.

r-ship of NGOs who also founder members of WAF.

pol. changes shape there - other pol. affiliations come and focused by WAF experienced. wall to feed into WAF. True earlier but now NGOs had lack of sharing + input into WAF - WAF suffering due to shift NGO id vs WAF id.

Does WAF have another role?

Consensus - WAF can play another role.

Non funded identity.

umbrella - NGO can't be.

WAF as forum for other NGOs. - not paid staff

while WAF can't dictate to NGOs, no purposive attitude

- WAF's inability to keep and weaken/attract members:
  - bickering — not personalise - focus on indiv. WAF should not be forum for NGO differences
  - radical — issues have imp. reform pot. edge
  - talk + no action - younger gen. — work out concrete issues at G.B.

WAF - ideological clarity - WAF members not clear on issue taken by WAF -
WAF's stands -

Should not contravene WAF stands -

Response

WAF's attending members should get copy of the report - All should have chance to comment.

ELECTIONS:

*time - Elected people should accept.
