- ❖ Bunny raised a question that people (non-members) are demanding to come in our convention, do we allow them?
  - ❖ Volunteers? Not attending the convention? The issue of confidentiality.

A detail discussion was held on these aspects and it was decided that:

- No last-minute entries in WAF
  - People can come only in the open event which is already announced with specific groups, NGOs.
  - We may can invite more people in open event, it depends.
  - Convention (all sessions) are only for WAF members
  - No dropping in / dropping out / members to attend the whole sessions for full time
  - It was decided that our own members should Volunteer themselves for the different tasks, responsibilities.
  - If we are having non-members as Volunteers, we should inform them nicely that they are not allowed to attend our sessions.
- ❖ Nighat Dad talked about the Social Media strategies to announce and to share specific detail of issues of the agenda in our Convention. The idea was appreciated and Nighat took the responsibility of WAF socials (Facebook, Twitter, Instagram etc)
