- Religious groups did not abide by decision to have peaceful protest
- But government had put containers there
- Did state allow this to happen? Was pre planned.
- Army operation has started all over Punjab after the fact. First had a meeting, announced and instantly started.
- Started with central Punjab including Lahore.
- Civilian government should have called the army ideally instead of army making own decision, but current Punjab government is very slow and not quick decision making.
- Are we opposed to all militarisation? But how can we object to just Punjab when every other province is having army operations?
- Women & children make soft targets
- **Tahira's statement endorsed by WAF Lahore.**
- **Victims require support e.g. making sure they get their compensation.**

- Great Lahore: all districts will be incorporate into the city. Mega city. The district will become the city of Lahore.
- We want to know: what are the implications? Small peasant lands. Good agricultural land turning into luxury housing. All villages will be demolished.

- 2 plans: Lahore city master plan & greater Lahore plans
- Filing land acquisition case and how? Lala is an affecte. Need to consult lawyer. Can ask Anwar.

Honour killings and rape bills:

- Met with Sughra Imam.
- **Very tight and sensitive negotiations are going on. Need for absolutely confidentiality.**
- **WAF needs to take up this issue with PML-N. They are creating the biggest hurdles.**
- Senate has passed both bills on "Anti honour killing law" and "anti rape law." Passed some time ago. January 2014.
- Should have gone to national assembly automatically but were not taken there. Not presented within 3 months so now need a joint session.
- Joint session called for PIA. Senate refused to pass it. Passed in national assembly.
- Bills may pass if they do a deal. However, PML wants amendments and fear they will try to weaken it.
- JUI voted for it!
- Section 309: compromise should not take place until the case is decided. No pardoning until sentence is passed. Timing crucial.
- Section 311: under tazir, even if compensation, court allowed discretion.
- **Want to make bill stronger.**
- **Maulvi pressure. Worry is that PML-N will concede everything.**
- **PML-N is the main impediment. Important that they support it.**
- **WAF's task is to keep the pressure on and look at key people in PML-N. Need to identify.**
- Sharmeen documentary sensational. Does not discuss history including how women's movement has lead us to this point and allowed this space.
- **WAF to write a letter to law minister regarding these bills especially honour killings. To be written with Hina J.**

Chapter report:

WAF history:

- **Lala to give an estimate on how much a photographic book will cost.**
- How many pages? Photos and text. In colour.
- Conventions: was there one in 1983? Two in 1982?
- 1991 WAF YWCA convention declared secular but charter changed a year later.
- Need to come up with a comprehensive history, fact checking and collective memory.
- **Starting from beginning until the split. Then to the merger.**
